

## Press-release

16 May 2023

### **Sales of new construction equipment for Q1 2023 in Russia decreased by 39,3%**

The provided data reflects an incomplete market of construction equipment due to the fact, that not all market participants currently take part in the AEB statistical data exchange. The Construction Equipment Committee is working to attract new players to the data exchange program, in particular Chinese.

The Construction Equipment Committee (CEC) was created by the Association of European Businesses (AEB) in February 2008. At the moment CEC represents interests of 80% road-building and special machinery companies of the Russian market.
