

## Press-release

29 October 2019

### **SALES OF NEW CONSTRUCTION EQUIPMENT FOR Q3 2019 IN RUSSIA INCREASED BY 13%**

The Construction Equipment Committee (CEC) was created by the Association of European Businesses (AEB) in February 2008. At the moment CEC represents interests of 80% road-building and special machinery companies of the Russian market.

Comments **Andrey Komov, AEB Construction Equipment Committee Chairman, Managing Director, Volvo CE Russia:**

«The overall picture on the market did not change much. It seems that it is slowing down. The feeling is like we are approaching the crossroad with a yellow traffic light. We can not move fast anymore. But it is too early to stop either. We hope, that the green light will turn on: economic incentives will start to work, lowered interest rate will give a positive effect, the infrastructure projects will get financed actively, and the situation with the coal mining will perhaps start to improve with the onset of winter. However, somebody at the traffic light console may also press the red button: to increase the recycling fee again. And then, under its weight, it will be very difficult for us and our consumers to move, or even to speed up again».
