# BP Russia. Overview.

- Partnership with Rosneft (19.75% stake owned by BP)
- Upstream and Downstream offices in the centre of Moscow
- JV projects with Rosneft

# User Awareness. Key Factors.

- Support from the top and central function  
(Cyber Security is declared as priority)
- There is a nominated Cyber Ambassador responsible to deliver the result
- Processes are very clear and transparent  
(policies, procedures and guidelines)
- Continuous and complex process of user awareness

# User Awareness. The components.

- On a regular basis :
  - open dialog with staff (STANDUPS as well)
  - relevant and targeted communications  
(e-mails, safety moments, personal conversations, etc. )
  - results reported to top management
- On-going measurement of achievements
- Long term improvement plans
- Sharing best practices all over BP, get best and provide the best

# User Awareness. Cyber Barometer.

A dashboard that shows how teams are performing against the 6 key digital security rules:

The information is gathered from a number of different sources day to day.

Highlights areas of the business that are performing well, areas that require improvement and those that require urgent attention.

Provides insights into the behaviours and recommended actions.
