

Digital is now | IT companies accreditation and audits: seize the moment

WEBINAR , INTELLECTUAL PROPERTY, TMT – TECHNOLOGY, MEDIA & TELECOMMUNICATIONS, TAX

02 June 2023, 13:00 - 14:00 UTC +03:00

On 1 June 1 2023, the deadline is due for confirming the accreditation of IT companies to receive state support. The Ministry of Digital Transformation has already announced the launch of relevant applications audits: companies will start receiving the first results as early as on 10 June.

At the same time, companies that benefited tax incentives in the 1st quarter of 2023 were not formally required to confirm their accreditation, but still may face control measures.

On 2 June 2023, we invite you to a practical webinar, where SEAMLESS Legal experts of the digital law and tax law practices will discuss possible issues that IT companies may face during audits, share the recommendations on the interaction with regulatory authorities, and remind you on the accreditation requirements for tax support measures.
