# Agenda

## Find areas for improvement in Russian forest industry

- Series of full-day meetings of top decision makers and specialists of member companies

## Propose practical solutions

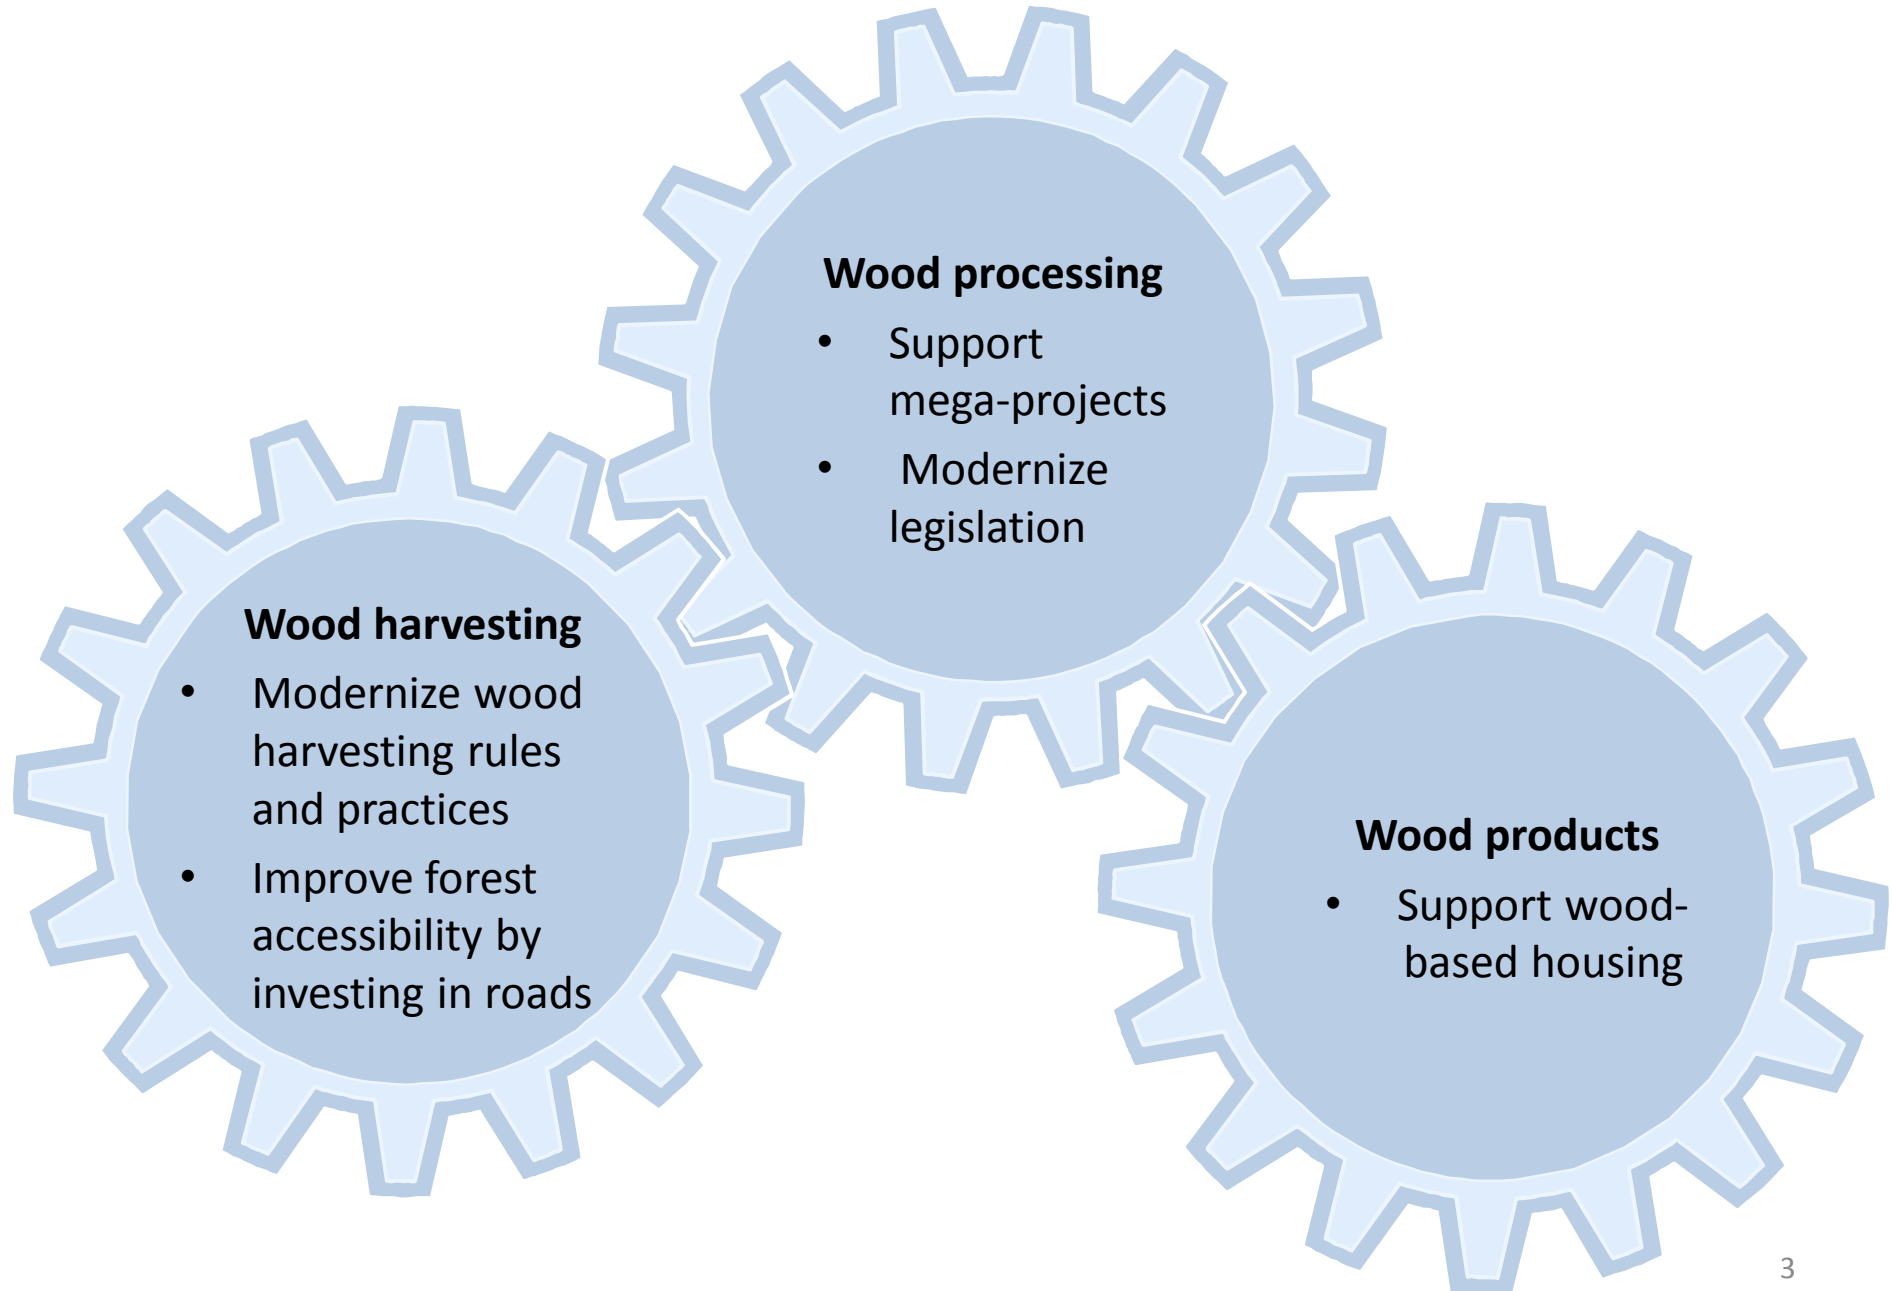

- Developed concise and fact-based situation analysis and proposed solutions

## Lead the change

- Members are to be the first users of new policies and incentives to further refine them and promote new possibilities globally

## Key findings are inter-related

# Next steps

- Calculate public and private sector benefits and publish/communicate them to all parties involved in the industry regulation
- Outline key changes to the legislation to facilitate the change process
- Publicize and promote the reform within the industry and among external stakeholders, e.g. EBRD
- Lead the change as role models
