

Member to member service – free advice

My companies in Moscow are offering accounting and management outsourcing since more than 10 years! Our clients are German speaking medium sized companies in various fields!

Based on this experience I would be more than happy to support or just exchange information during this very special period.

Please note that I am available for advice for our members, if needed on following subjects connected with special procedures, exclusions, exceptions during Covid-19 crisis:

- Accounting, payroll and administration – impacts
- Management, Interim-Management – what to do, if the GM is abroad
- Labor law or migration – special orders, home office procedure etc.
- Contacts to other firms – just an angle to others
- Contacts to the Austrian community/embassy/consulate
- Other subjects from long experience – practical support
