Localisation, Internationalisation

Companies that have established production facilities in Russia years ago now enjoy a competitive advantage and are less exposed to currency fluctuations.

Based on ruble exchange rate change, personnel costs have fallen, which has increased international competitiveness and Russia has become an exporting country.

Many companies from Eastern Europe choose Austria as location for their activities to internationalise their activities. Especially Vienna offers all advantages as a bridge between Eastern Europe and the European Union.

Support for localisation projects:

- o Consulting
- o Business localisation
- o Business process outsourcing
- o Business partner search
- o Personnel management
- o Legal advice- with partners
