

# Financial management

**SCHNEIDER GROUP** is pleased to present a new line of our services: **Financial Management and the CFO function.**

**We provide much more than just Accounting Outsourcing for client's business.**

Financial Management is a vital activity in any company. It is the process of business planning, budgeting, organizing, reporting, analyzing, controlling, managing cash flow, and monitoring financial resources to achieve the entity's main goals and objectives.

**We support our clients when they:**

- Don't have their own CFO or are in the process of replacing one
- Need more than accounting but high qualified services in financial management
- Have their own finance team, but need additional support

**SCHNEIDER GROUP** is happy to support clients with its wide experience, deep knowledge, best practices, new trends, ideas, and IT solutions for automation.

**SCHNEIDER GROUP's Financial Management Team** assists the local team, whether the CFO, financial controller, or accountants, in financial tasks and achieving strategic company goals.
