

Presentation of “Prognoz” organised by the IT-Telecom Committee of the AEB

On February 7th 2008 the representatives of the European companies – members of the Association of European Businesses had an opportunity to meet with Dmitry Andrianov (CEO of “Prognoz” company) and Vladimir Eskin (Assistant CEO).

“Prognoz” has presented its developments in the sphere of energy, tourism and demonstrated the functions of the analytical systems developed for large companies as well as the packages for macroeconomic forecasting for Europe, China and the US.

Previously the IT-Telecom committee of the AEB organised similar meetings with the representatives of “Vypelcom”, “Luxsoft”, “Kaspersky Lab” and other companies.
