

Scheme of engineering networks and objects on the Site

- borders of our Site
- destroyed building
- cooling tower
- truck weighbridge
- underground treatment facilities
- Central plant laboratory (destroyed)
- Monoblock storage building
- Temporary monoblock storage building
- Warehouse building for carbide and oxygen storage
- Transformer Sub station No. (distance from the Site near 150 m)
- Monoblock storage building
- fire hydrant (distance to the Site near 5m)
- Borders of (Land lot)
- overhead city gas pipeline Ø 400
- river water pipeline (Ø 300)
- storm water runoff
- wastewater discharge
- water supply (from city pipeline)
- railway
- Conservation zone – 2 m in each direction
- Technical (protection) zone – 5 m in each direction
- Technical (protection) zone – 3 m in each direction
- Technical (protection) zone – 3 m in each direction

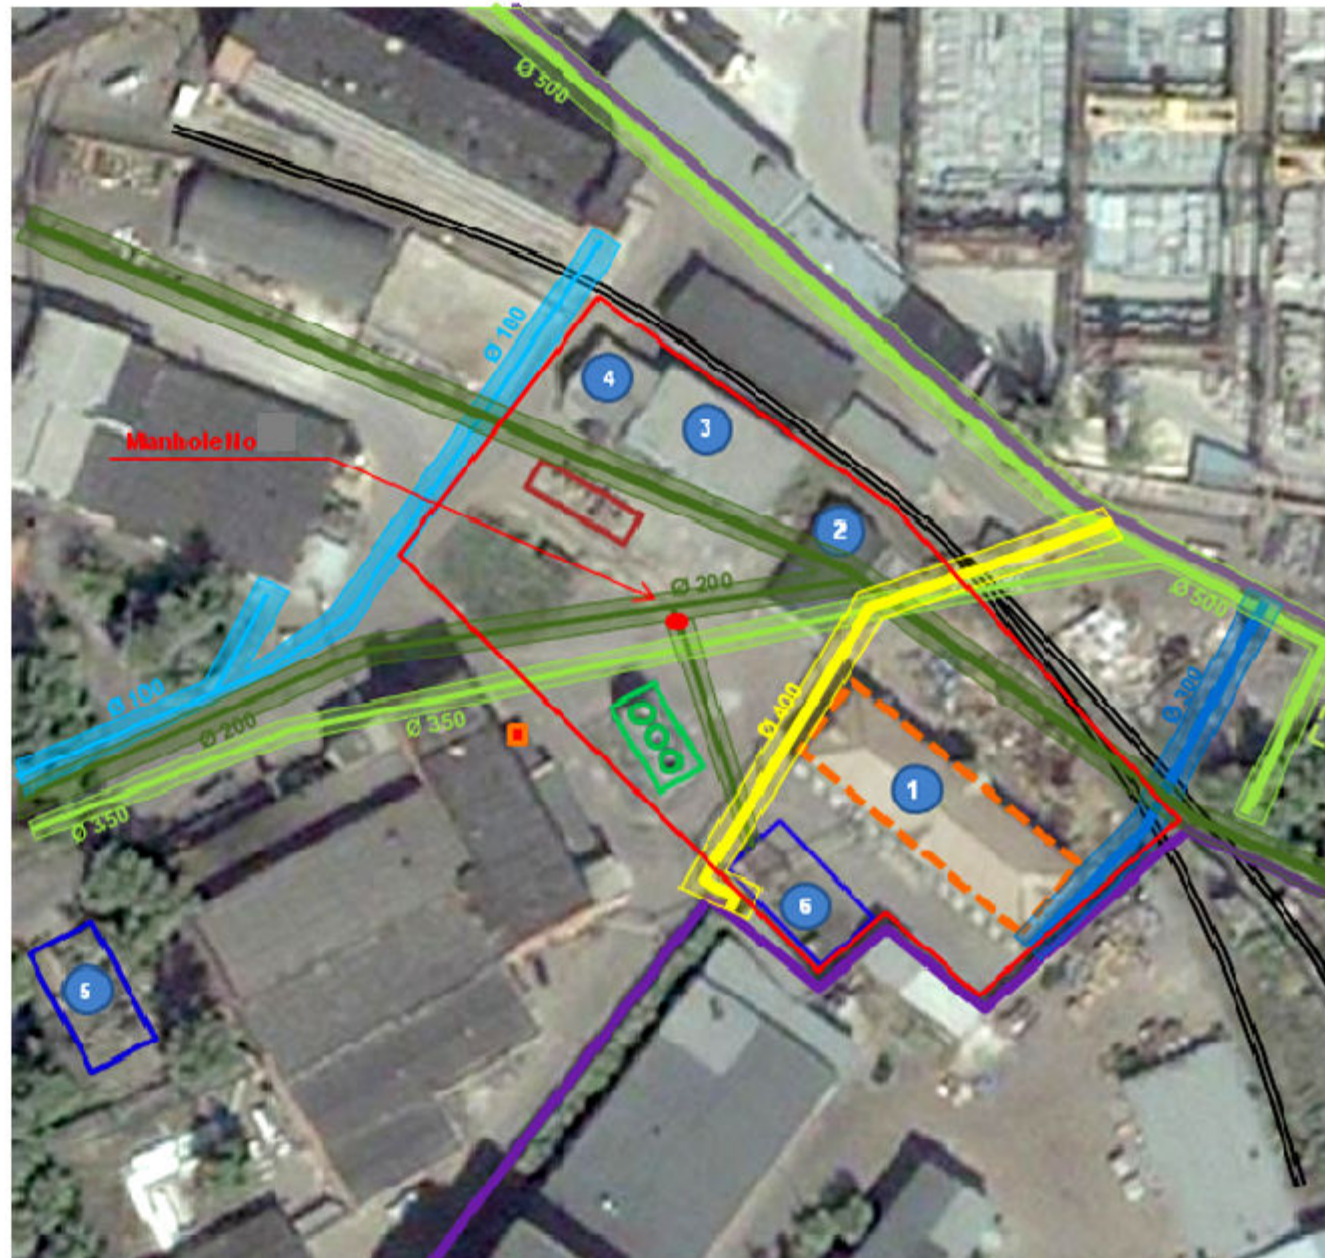

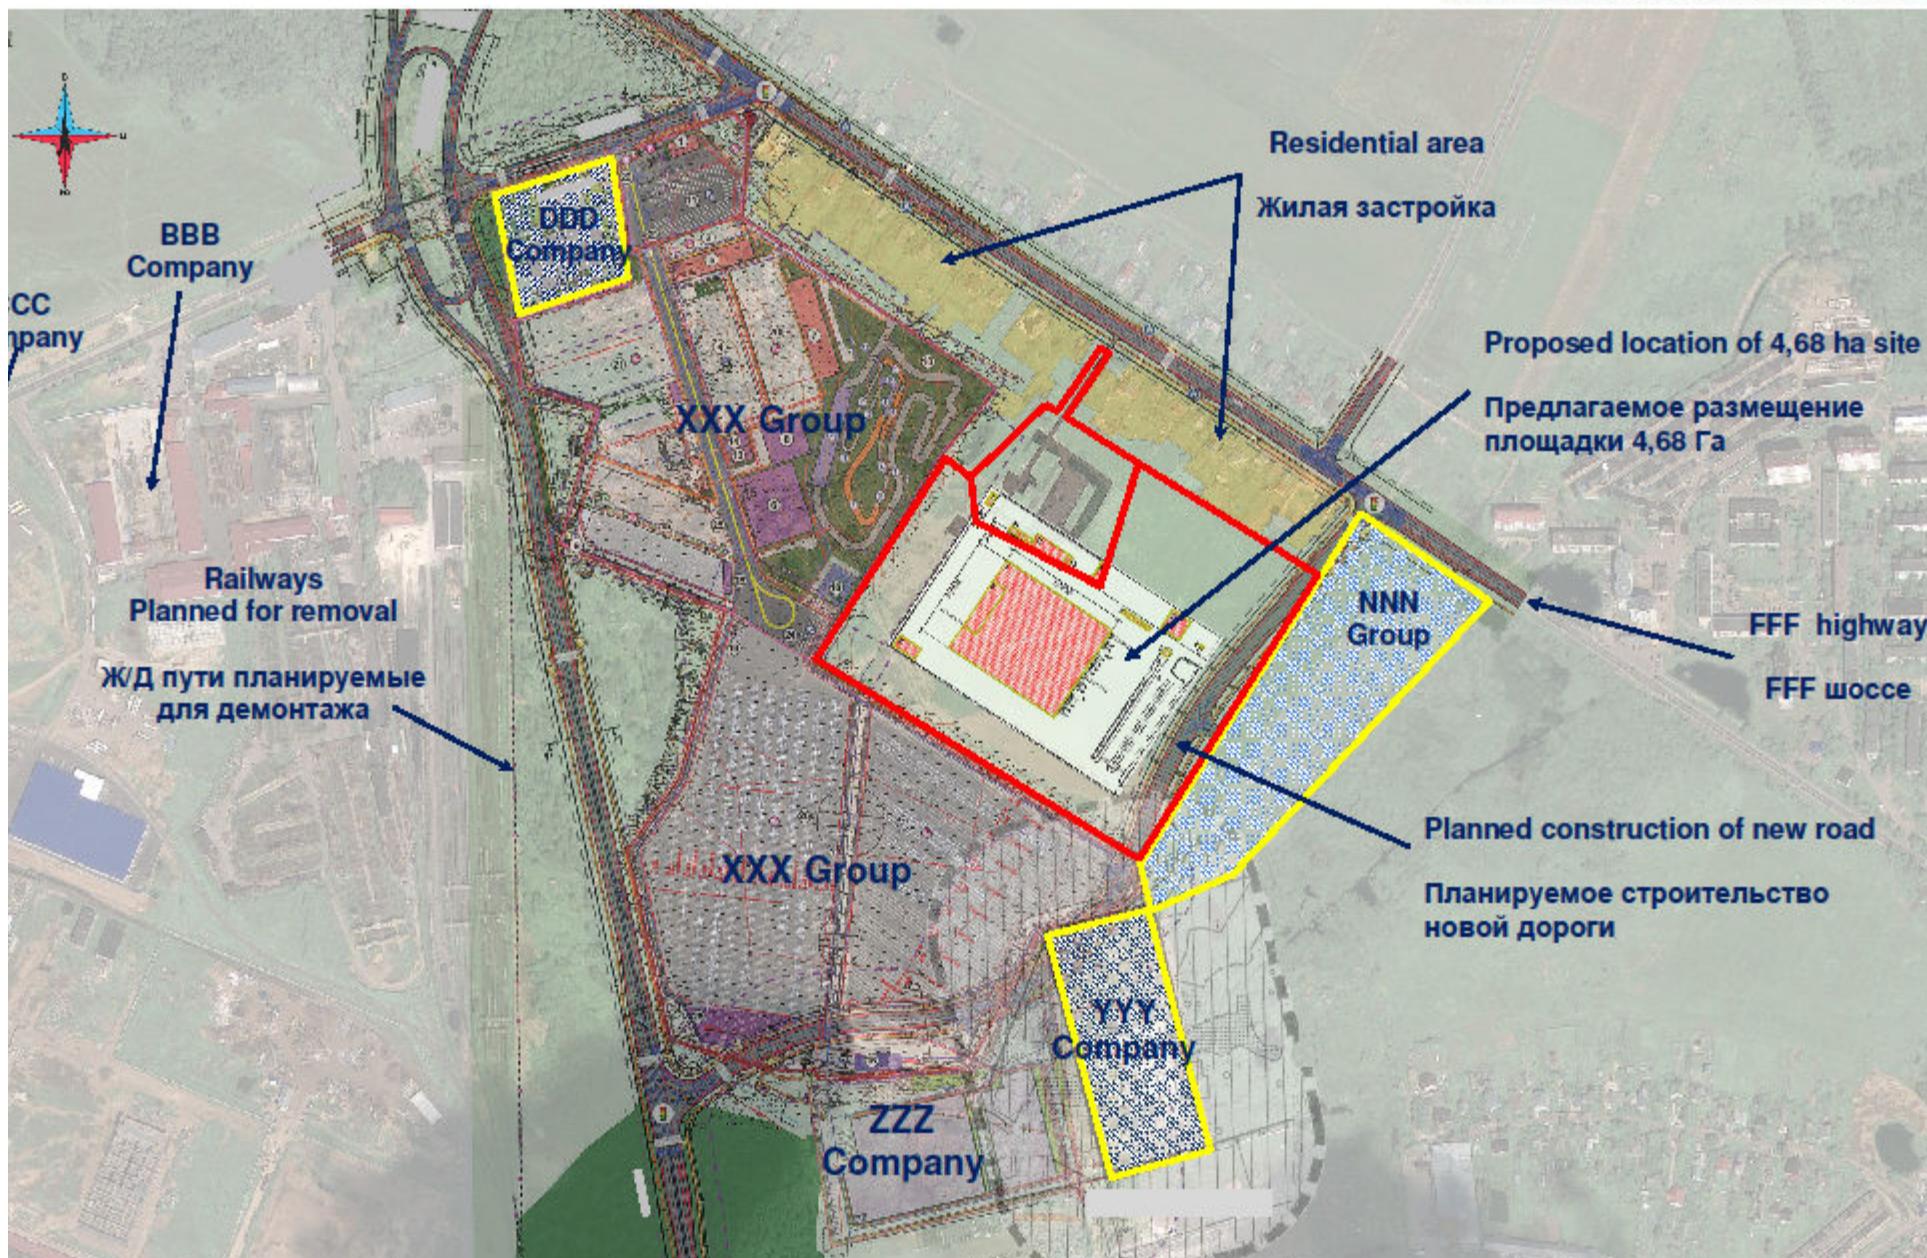

Схема предлагаемого размещения участка

Red line – cadastre border of the 10Ha and 1.8 Ha
Красная линия - граница участков 10 Га и 1.8

Green area - selected 40 Ha landplot
(the same area for ecological survey)

Yellow area - construction restrictions:

- Highway - 70 m each side from road axis
- High-voltage line - 20 m from each side of the line
- FFF Village - 100 m from residential buildings.
