

VEGAS LEX DISCUSSES DECOMMISSIONING OF ENERGY FACILITIES AT A WORKSHOP FOR SIBUR HOLDING

Counsel at VEGAS LEX Energy practice Yuriy Tatarinov spoke at a workshop on decommissioning of energy facilities for SIBUR Holding employees held at the Market Council Partnership training center.

On December 1, 2016, Counsel at VEGAS LEX Energy practice **Yuriy Tatarinov** spoke at a workshop on the rules and procedures for technological connection to power grids, organized for SIBUR Holding employees at the educational center of Non-profit Partnership "Market Council".

The expert discussed the rules of decommissioning energy facilities, the rights and responsibilities of the System Operator of the Unified Energy System, and the Russian Energy Ministry's authority in coordinating the decommissioning of such facilities. In his report, *Power supply restriction/cut off to consumers*, Mr. Tatarinov explained who can initiate the restriction and what the constraints can be, and described the general restriction procedure. The participants also discussed the legal issues of cooperation between power suppliers and grids, on the one hand, and power consumers, on the other, in cases where they have (or don't have) Acts of coordination of emergency and (or) technological reserved quota; the legal specifics of drawing up of the Acts of coordination of emergency and (or) technological reserved quota, and the implications of lacking such acts.
