

Moscow, 9 November, 2011

PRESS RELEASE

October Shows the Stabilising Trend for the Final Quarter of 2011.

- *Sales of new passenger cars and LCVs in Russia increased by 43% in the first ten months of 2011 and by 27% in October 2011*
- *Among the top ten bestselling models so far, nine are locally produced*

The first ten months of 2011 saw sales of new cars and light commercial vehicles in Russia increase by **43%** compared with the same period in 2010 or by 645,051 more sold units, according to the AEB Automobile Manufacturers Committee (AEB AMC).

Growth for **October 2011** amounted to **27%** or 51,349 units compared with the same period in 2010.

Among the **top ten bestselling models** of passenger cars so far, **nine** are produced in Russia.

David Thomas, Chairman of the **AEB Automobile Manufacturers Committee** commented:

"The 27% increase for the month of October shows the stabilising trend for the final quarter of 2011. The very strong start to 2011 means that our full year forecast increases to 2.55m cars and light commercial vehicles as we do not expect a significant slowdown in the last two months of the year. This will mean that for the full year the total industry volume will increase by more than 30%. Based on a 2.55m market this year our initial forecast for 2012 is 2.8m, growth of 12% compared to 2011 and very close to the highest ever year for the Russian cars and light commercial market in 2008 of 2.9m."
