

Russian government approves new accreditation procedure for IT companies

26 October 2022

On 30 September 2022, the Russian government adopted Decree* No. 1729 to approve new regulations for the state accreditation of Russian organisations operating in the field of information technologies ("**IT companies**"). We previously reported that the former accreditation procedure was no longer in force due to the adoption of a law expanding tax support measures for IT companies.

* *In Russian*
