

## **VEGAS LEX DISCUSSES THE FORMAL LOGIC TOOLS AND WRITTEN COMMUNICATION SKILLS**

**On 11 July 2017, VEGAS LEX held in its office the workshop “Dealing with the rule-making initiatives. The skills of drafting opinions and commentaries” dedicated to adjustment of key algorithms of logic analysis and written communication skills for the professionals of companies operating in pharmaceutical sector and related industries.**

The workshop participants together with [Maria Borzova](#), VEGAS LEX Manager of Life sciences projects, analyzed the basic tools of formal logic and the use of such tools in practice as well as discussed in detail a typology of logic errors and the mechanisms of protection from logic manipulations. Based on the examples of the opinions and arguments declared within the framework of public discussions of the high-priority legislative initiatives, the workshop participants considered the procedure for application of the developed logic algorithms.

In the second session of the workshop, its participants discussed the basic rules of written communication and studied the ways of eliminating common mistakes when drafting documents.

We appreciate our colleagues’ involvement and active participation in the workshop!
