

The KIHE (Kazakhstan International Healthcare Exhibition) in Almaty is almost here.

As you may be aware, WELLGO group is hosting a stand there, from the 21st to 23rd May. We are on Stand 9-06 – you are welcome to use our promo-code **KIHFPBHDLT** to access the Exhibition.

This event is of interest to everyone associated with the Life Sciences and Health Care / Pharmaceutical Sectors. It features presentations, seminars and offers a wide spectrum of Healthcare sector sub-sections from medical tourism to raw materials, advanced diagnostic equipment and production machinery.

On the 22nd May at 16.00, WELLGO Speaker Anna Filippova will present a topical subject of interest to all attendees - “The International Logistics Market in 2025: Challenges, Routes, Solutions”. WELLGO staff will be on-hand to provide information, support, advice and product demonstrations to all our visitors!

KIHE is the largest demonstration platform for achievements in the field of scientific and practical medicine and pharmaceuticals for Central Asia and Kazakhstan. This is the 30th year, of a prestigious event which annually brings together doctors of various specialties, pharmacists, representatives of government and business people from many different countries.

The KIHE project is officially supported by the Kazakhstan Ministry of Healthcare, Akimat of Almaty city, Department of Public Health of Almaty Municipal State Institution, the Kazakhstan Association of International Pharmaceutical Manufacturers, the Eurasian Medical Association, and the Kazakhstan Association for the Support and Development of Pharmaceutical Activities.

Thanks to WELLGO Group’s unmatched expertise in the Pharmaceutical Logistics field, we are proud to represent our company at KIHE.

WELLGO Group hosts stand at the KIHE exhibition in Almaty, KZ – 21-23 May 2025!

Our Head of Airfreight, Anna Filippova, will present “International Logistics Market 2025 – Challenges, Routes, Solutions” in the seminar programme.

Our stand will feature colleagues with a strong background in the pharma logistics field, along with a demonstration of our products and services.
