

The International School of Moscow is pleased to invite you to join our webinar  
**‘Pathway to University’**,  
reviewing our university preparation programme, today’s challenges, and the various  
opportunities for students aged 12 to 16 in our school.

Date: Thursday, 8<sup>th</sup> October

Time: 16:30 – 17:30

Format: live in [Zoom](#)

Language: English

The International School of Moscow first opened its doors in August 2007 and now welcomes over 1000 students of more than 60 nationalities.

Since 2016, over 80 students have become ISM alumni, and almost half have entered the Top 100 Universities in the world including Cambridge University, UCLA, the University of Michigan and the University of Toronto. Even more importantly, all of our graduates have received offers from their first-choice universities. In this webinar, you will learn how we make this possible for our students.

The webinar is designed to give you an overview of the gold standard of university preparation. We will talk about today’s challenges and the various opportunities for students, including best practice from our Virtual School Experience, through which we continue to support our students in their progress toward their university goals.

We are excited to introduce multiple speakers presenting their areas of expertise.

- The ISM Principal
- Head of Krylatskoe Secondary and Upper Campus
- Academic Deputy Head of Secondary School
- Head of ISM Sixth Form

You will also have the opportunity to ask our panel questions.

We invite you to complete our short registration form to reserve your (virtual) seat for our Webinar.
