

Suspension of tax treaties with “unfriendly” countries

Dear colleagues,

On 8 August, the President has signed a decree* partially suspending Russia’s double taxation agreements with US, UK, Japan, Australia, South Korea, Singapore, Canada, most European countries.

This is a fundamental tax change that has a big impact on the taxation of payments abroad.

Join us online on 23 August 2023 to learn more about the challenges to be faced by the international businesses in Russia in light of the above novelty.

During the webinar, our tax expert Maria Kabanova will review the most important topics, in particular:

- Scope of the DTTs suspension and timing of the initiative’s implementation;
- Revision of withholding tax rates on distribution of passive income from Russia;
- Influence of DTT suspension on other taxation issues (including PE aspects, income from international transportations, etc.);
- Other recently introduced initiatives (extension of the black list of the offshore jurisdictions) and potential further developments.

Please click here to register.
