- Шведско-российское межправительственное соглашение о сотрудничестве в области охраны окружающей среды
- Agreement between the Russian and the Swedish Energy Agencies
- Соглашение между энергетическими агентствами РФ и Швеции

Set-up / Состав

- **Joint initiative from three Swedish Ministries**
 - Ministry of the Environment
 - Ministry for Foreign Affairs
 - Ministry of Enterprise, Energy and communications
- **Совместная инициатива трех шведских министерств**
 - Министерство экологии
 - МИД Швеции
 - Министерство промышленности, энергетики и связи
- **Cooperation with the Embassy of Sweden in Moscow and the Consulate General in St Petersburg**
- **Сотрудничество с Посольством Швеции в Москве и Генконсульством в Петербурге**

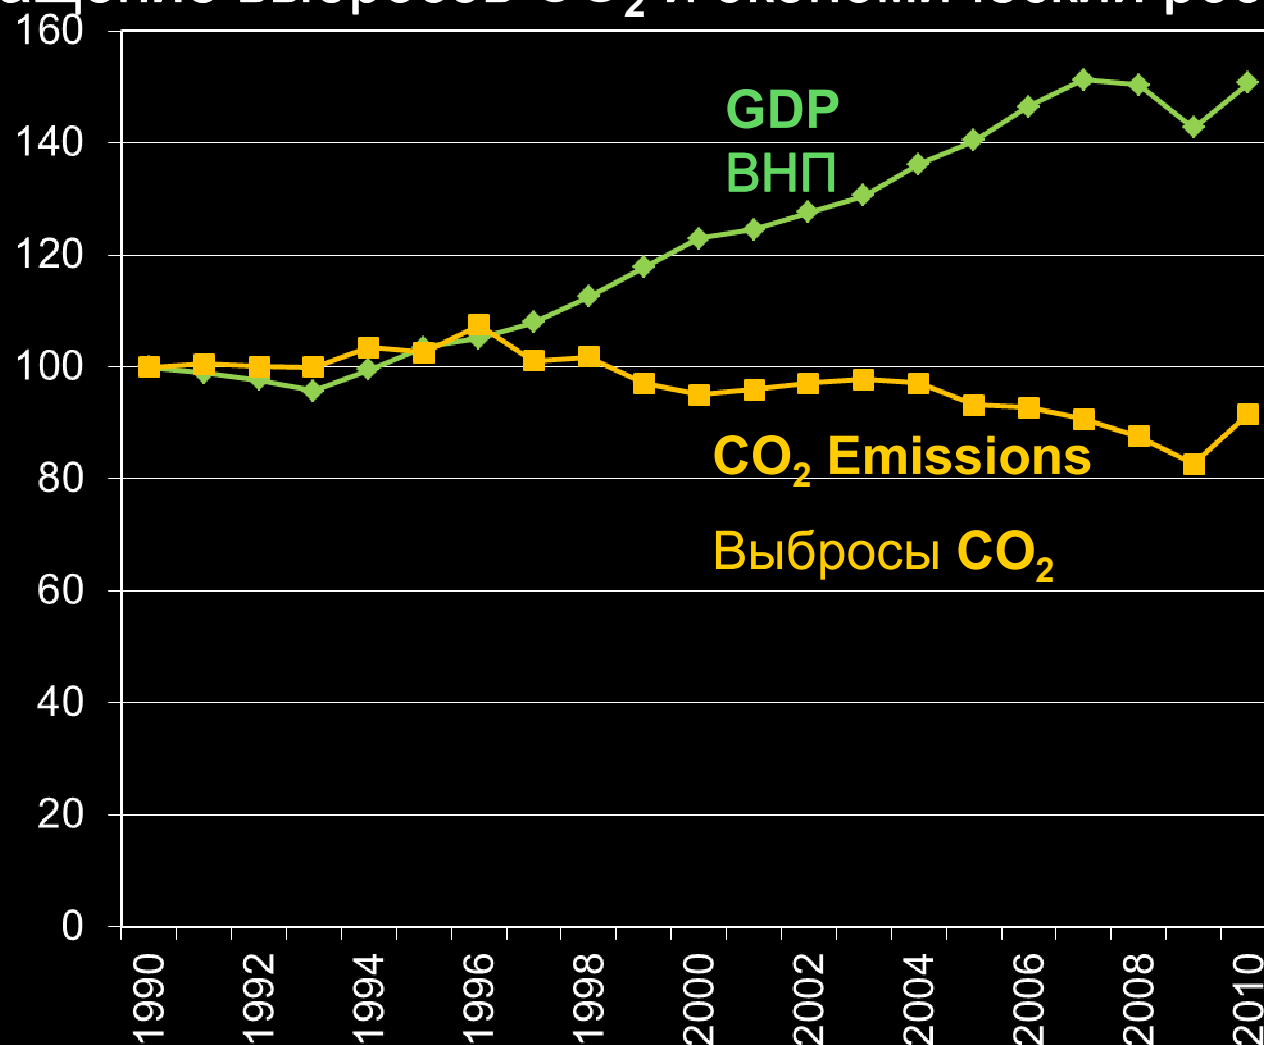

Areas we focus on / Области нашего взаимодействия

- Renewable energy and energy efficiency • Возобновляемые источники энергии и энергоэффективность
- Sustainable urban development • Устойчивое городское развитие
- Cleaning of air and water • Очистка воздуха и воды
- Waste management • Переработка отходов
- Sustainable transport systems • Устойчивые транспортные системы
- Industrial environment • Производственная среда

CO₂ reductions and economic growth in Sweden

Сокращение выбросов CO₂ и экономический рост в Швеции

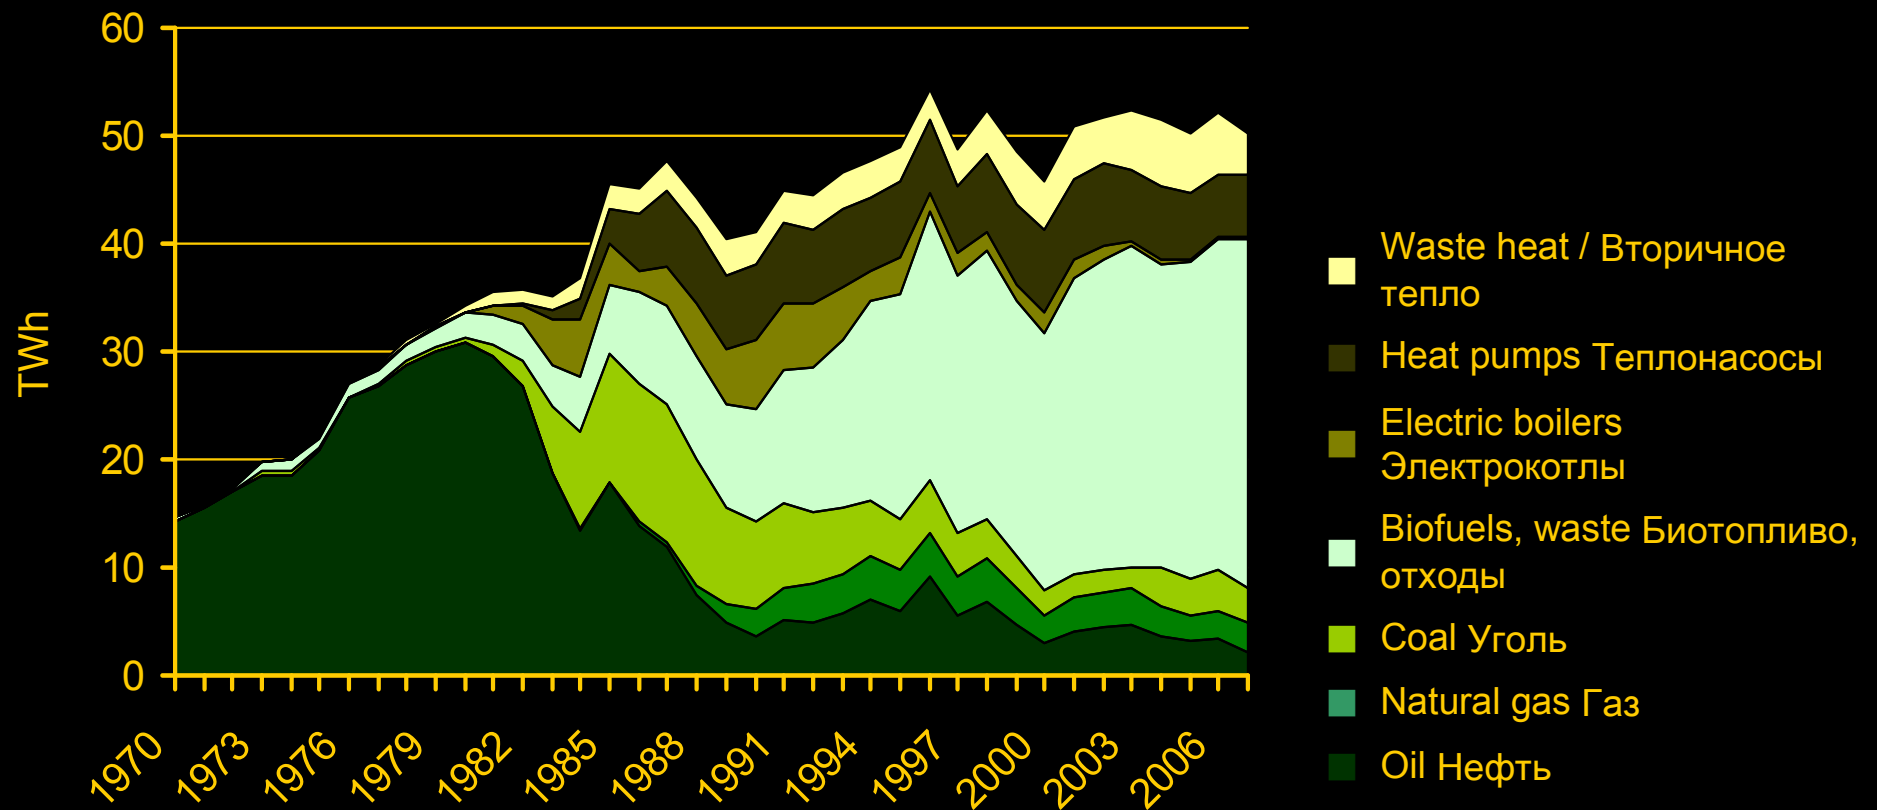

*From 1990 to 2010
Swedish emissions
of CO₂ decreased
with 8 % and the
economic growth
was 50%.*

*С 1990 по 2010
выбросы CO₂ в
Швеции
сократились на
8 %, а экономика
выросла на 50 %.*

***Introduction to international advanced
water technology centre***

Dmitry Troshenko,

Director, SUE Vodokanal of St.Petersburg

Mika Sulkinoja,

Director, Finnish Cleantech Cluster

III Northern Dimension Forum

International Advanced Water Technologies Center

29 March 2012

III Northern Dimension Forum

Signing of Memorandum of Cooperation (Moscow, 21 October 2010)

III Northern Dimension Forum

Joint EU-RF Conference on water resources: Launching the Center (26 January 2011, St.Petersburg)

III Northern Dimension Forum

Main Objectives:

- Organization of international cooperation on sustainability and water resources management;
- Exchange of experience in using technologies of water supply and sanitation, protection of the environment and rational use of natural resources;
- Accumulating, summarizing and promoting the innovative water-related knowledge;
- Arrangement of activities focused on exchanging information, ideas and technologies of production and water resources management;
- Assisting environmental education of schoolchildren and students

III Northern Dimension Forum

The Center activities are performed in the following forms:

- Conferences
- Seminars
- Laboratory work (audit)
- Lectures
- Interactive lessons
- Hands-on training

III Northern Dimension Forum

Main categories (target groups) of the Center participants

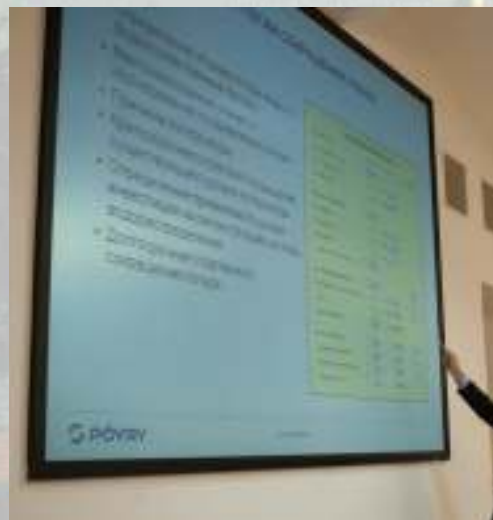

- Managers and personnel of water companies;
- Employees of Research Science Institutes;
- Managers and personnel of control water quality research laboratories;
- University students specializing in water-related and other professions;
- 8–11 – form school students.

III Northern Dimension Forum

Best experts from Russia and Eastern Europe take part in the Center training activities

III Northern Dimension Forum

**The production site visits are also arranged
in the frames of the Center activities**

III Northern Dimension Forum

**Feedback from participants is
the foundation for continuous improvement of the Center**

Main items of the survey:

Satisfaction with the quality of activities

Proposals for improvement

Topics to be included into the plan of activities

III Northern Dimension Forum

Environmental education is one of the major directions of the Center activities

In 2011, over 500 pupils took part in the Center “children’s activities”

III Northern Dimension Forum

Participation in international forums and exhibitions

**International Trade Fair
Cleantech Expo 2011
(Lahti, Finland)**

**World Water Forum
(Marseille, France)
12 – 17 March 2012**

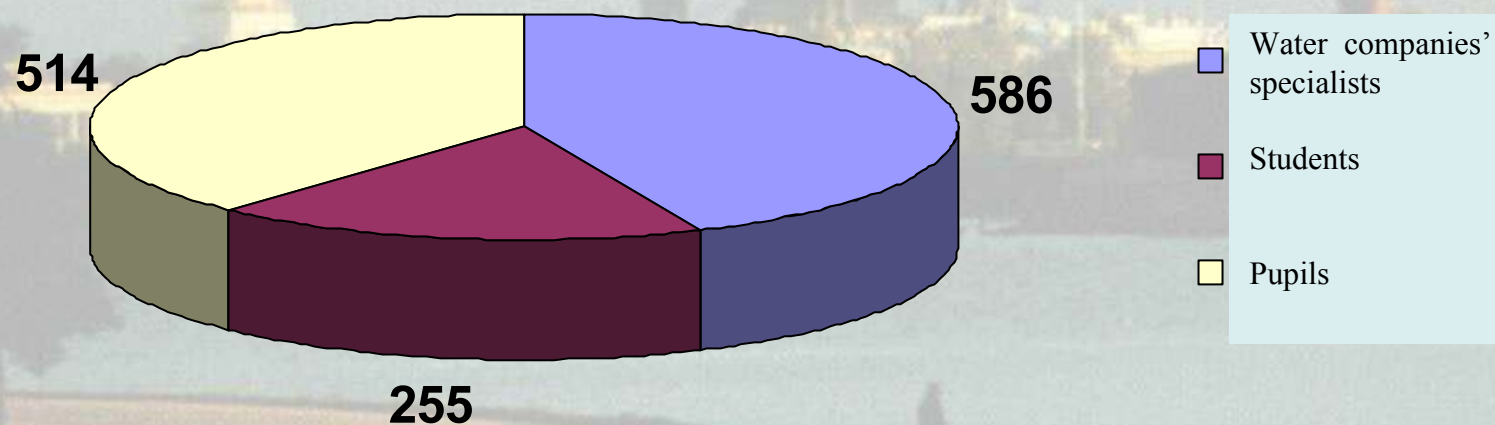

III Northern Dimension Forum

Results of the Center educational activities in 2011

Total number of participants - 1355, including:

- 586 water and wastewater experts
- 255 university students
- 514 school pupils
