Operator involvement in waste reduction program

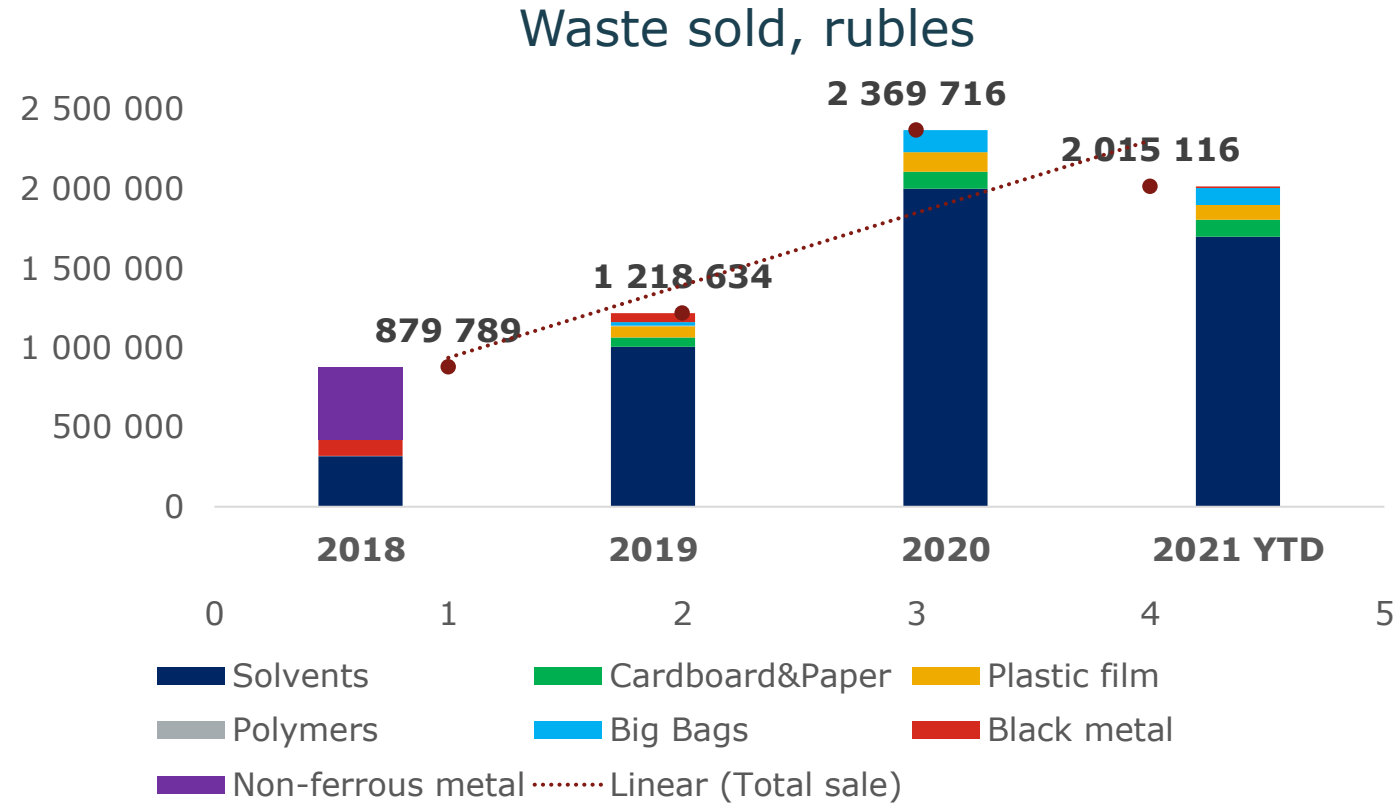

Penguin Spirit

Is our waste story successful?

Sale of waste as a result of correct sorting. Give second life to wastes

Opportunities

Goals

- Raise recycling to 60% by the end of 2022 through careful sorting;
- To reduce the amount of generated waste per ton of manufactured products up to 40 kg / ton (now ~55 kg / ton);

Opportunities

- Waste Reduction Program; Sharing experience and best waste reduction solutions inside Jotun Group;
- Updated Waste Stream mapping;
- Appointed Waste Coordinators in each area/department;
- New waste handling area with better conditions for sorting;
- Updated technological processes, re-use program for raw materials, packaging, second-grade;

Thank you!
