

Eversheds Sutherland awarded Law firm of the Year!

We are delighted to announce that on October 5, the international legal magazine Legal Business published the results of its annual Legal Business Awards, where **Eversheds Sutherland has won the prestigious “Law Firm of the Year” award**. The firm has been recognized by representatives of leading global corporations such as Uber, Adobe, Johnson Matthey, Lloyds Banking Group, EasyJet and others. Only the strongest legal consultants are represented in this nomination. Judges were looking for a firm that took the market by storm and achieved more than their direct competitors and peers. Achievements may include – but are not limited to – the successful development of new practice areas, expansion into new international or domestic markets, new client wins, the completion of a strategic merger or acquisition, improved financial performance, or a successful recruitment policy. Well-coordinated teamwork, innovative ideas and customer-oriented approach helped Eversheds Sutherland to make this breakthrough in no time.

Some judges noted to Legal Business: “Eversheds Sutherland emerged as a clear winner. Not only was the firm successful commercially, turning in strong financials and pointing to a number of major new client wins and panel reappointments for global giants, but it has also made a difficult transatlantic merger work under strong leadership, completed a strategic masterstroke with the spin-off of its alternative legal services arm, bolstered its ranks with some prominent lateral hires, and nailed its colours to the mast with firm targets for ethnic diversity. Our congratulations go to Eversheds Sutherland, the winner of this award is quite simply the best in the business right now.”

Annually the most respected and well-known international law firms take part in various nominations of the Legal Business Awards. You can find more information about the award following the link: <https://www.legalbusinessawards.com/categories/law-firm-of-the-year/>
