WHO WE ARE

Tadzio Shilling
CEO

Dear colleagues,

Over the past 27 years the Association of European Businesses has worked its way up from a small business club in the mid-1990s to a major representative of international investors in Russia. Today we proudly unite over 500 large, midsize, and small companies from across 35 countries and all sectors of the economy.

Over the years the AEB has stood side-by-side with its members through all the crises European companies faced. We continue to relentlessly focus on helping foreign investors navigate the often-challenging environment and on addressing the issues raised by our members, both to the relevant European Union authorities and to Russia's business and political leaders. The shared efforts of our 80+ committees and working groups enable our impressive lobbying power on a wide range of issues in various business areas.

We are stronger together and in unity this tremendous international business community resolves important legislative issues, achieves significant improvements, and perseveres through turbulences and challenges.

We are pleased to invite you to get acquainted with our primary milestones and are always open to discuss in more details how we can be of help to your company.

27 years
of work
